

#### COMMITTEE MEMBERSHIP

**Ron Abrams**

Ohio Association of Community Colleges

**Morris W. Beverage, Jr.**

Lakeland Community College

**David Burns**

Ohio Department of Education (co-chair)

**Roy Church**

Lorain County Community College

**Kathy Krendl (Dan Evans)**

Ohio University

**Howard Lawson**

Akron Public Schools

**Rick McIntosh**

Project Learn of Summit County

**Sherry Minton**

South-Western City Schools

**Mark Nutter**

Washington State Community College

**J. Chris Pfister**

Apollo Career Center

**Monica Posey**

Cincinnati State Technical and Community College

**Roscoe Schlachter**

Cuyahoga Valley Career Center

**Jon Tafel**

Ohio Board of Regents (co-chair)

**Terry Thomas**

Ohio Board of Regents

**Robin White**

Great Oaks Institute of Technology

Knowledge and innovation are reshaping Ohio's landscape and changing the way that we do business.

## What must Ohio do?

The State Advisory Committee on the Transfer of Adult Career-Technical Programs says . . .

- Create and nurture a vibrant system of higher education by fundamentally changing how its institutions operate and respond to the multiple ways that students learn.
- Raise the educational level and credentialing of Ohio's population to ensure better jobs and higher incomes.
- Create opportunities to attract and retain business and to foster innovation and competitiveness.

That's why the Committee's thoughtful report needs to be read carefully and used as a blueprint for ensuring that the structures, programs and funding of Ohio's adult learning system are aligned with employers' workforce needs and students' expectations.

**FACT:** Ohio's fastest growing occupations over the next decade will require learning beyond high school.

**FACT:** Almost 75 percent of Ohio's current workforce will still be working in 2020.
